

Manav Shah

Product Designer

Boston, MA / (617) 749-8140 / shah.manavd@northeastern.edu / manavshah.me | [Linkedin.com/in/manavshah177](https://www.linkedin.com/in/manavshah177)

EXPERIENCE

Product Design Intern

Lighthouse AI

February 2025 – July 2025

California, USA (Remote)

- **Led end-to-end design** for AI-assisted 'Playbook' feature, translating complex workflows into intuitive experiences, **shipping 5 high-fidelity prototypes and a 20-component design system** adopted across the product
- Designed and executed mixed-method research studies (**50 surveys, 20 interviews**), synthesizing findings into recommendations that shaped roadmap decisions with PMs and engineering leaders
- Drove **40% increase in AI extension downloads** by redesigning onboarding through rapid sketching, iterative prototyping, and hands-on AI tool usage to validate design decisions

Product Design Intern

Brackets

November 2024 - February 2025

Gujarat, India

- Conducted generative and evaluative research across **35 sessions and 20 interviews**, synthesizing qualitative insights into journey maps and personas that directly influenced feature prioritization and roadmap decisions
- **Crafted 15 high-fidelity screens** across core user flows through iterative wireframing and prototyping within agile sprint cycles
- Architected a **50-component design system** across passenger-facing and enterprise (SaaS) interfaces, enforcing WCAG accessibility standards and **unifying 5 core workflows**

PROJECTS

Founding Product Designer

Times Media OOH

January 2025 - Present

- **Designed and shipped a replacement system** that reduced operational friction across a 660+ boards outdoor-advertising business, consisting of an admin portal, QR codes and field portal, and a client portal resulting in hours of time saved and a **100% decrease in fines** from missed lease due dates
- **Built analytics and reporting tools** that surfaced insights into board performance and client behaviour, uncovering **new business opportunities** previously hidden in scattered, manual data
- Created a modern client-facing **landing page with credibility elements** (trust signals, performance stats, testimonials) and **clear CTAs** to support business development

Founding Product Designer

Peak

June 2025 - Present

- **Building an AI-powered iOS fitness app end-to-end**, translating user interviews across multiple fitness experience levels into a dual-mode product concept - low-effort tracking vs. detailed tracking
- **Designed the full visual and interaction system**, including a custom progress-ring **motif and brand identity**, establishing a cohesive design language from onboarding through core tracking flows
- **Crafted the brand narrative and pre-launch marketing strategy**- including a multi-video campaign and story driver copywriting to build audience and anticipation ahead of launch.

SKILLS AND TOOLS

Product Design: End-to-end UX Design, Wireframing, Prototyping, Design Systems, Information Architecture, User Research, Usability Testing, Heuristic Evaluation, Affinity Mapping

Build & Market: AI-Assisted Development, Brand Strategy, Copywriting, Growth Storytelling

Tools: Figma, Figma MCP, Claude Code, Supabase, Qualtrics, SurveyMonkey, Aha!, Miro, After Effects, Google Analytics, CMS

EDUCATION

Master of Science in Information Systems

Northeastern University

September 2025 – December 2027 (Expected)

Boston, Massachusetts

Bachelor of Technology in Computer Science and Design

A.D. Patel Institute of Technology

September 2021 – May 2025

Gujarat, India
